Report on Exposure Trip on "Agripreneurship"

Objective: Experiential Learning Activity on Agriculture-based Entrepreneurship Initiatives

On 17 February 2024, the Department of Commerce went for an exposure trip to Rusoma Village along with 30 students and 5 faculties. The purpose of the trip was to learn about Agripreneurship on orange cultivation. Therefore, the students along with the faculties visited one of the orchards in the village. The orchard had 200 trees which was 22 years old and it generated a revenue of average Rs15 lakhs in a year. The students also learnt about the process and the management of business venture on orange cultivation.

The department also detour the historical place and learned about the Legend of Sopfunuo. Thereafter, before the departure, cleanliness drive was conducted around the historical place and the village ground.

EXPOSURE TRIP ON AGRIPRENEURSHIP TO RUSOMA VILLAGE (17/02/24)

Objective: To conduct experiential learning activity for B.com 6th Semester students in relation to agriculture-based entrepreneurship initiatives

The Department of Commerce under its Experiential Learning initiatives organised a one-day exposure trip to the orange orchards at Rusoma Village, Kohima Nagaland for its 6th Semester students on 17/02/24. The exposure trip was carried out with the primary objective of helping the students experience the reality of entrepreneurs who have ventured into the profitable venues of agriculture-based businesses. The students visited an orange orchard and corresponded with the owner of the orchard to understand the nature of demand for the products, capital requirements, profitability, viability and feasibility, scope for expansion and future developments and so on.

The first-hand experience is expected to inspire the students to understand the concept of Agripreneurship better and also help them towards developing similar interests and business plans in the agricultural sector.
