

KOHIMA COLLEGE, KOHIMA
FUNCTIONAL ENGLISH DEPARTMENT
COMMUNITY EXTENSION SERVICE

On 4th March, 2025, Functional English Department, Kohima College, Kohima comprising 27 second semester students (FE Honours) along with faculty members went for Community Extension Service to Government Middle School, Phezoucha.

The primary objectives of the extension service were:

1. To reach out and extend community service to young learners
2. To gain practical insights in classroom teaching
3. To encourage experiential learning beyond textbooks

The extension service trip was a resounding success, fulfilling its intended objectives with our students getting to engage young learners of classes A, B, 1 & 2 with various classroom activities and interactions. The young learners were enthusiastic to interact and learn alongside our student-teachers. The department also reached out to the young learners by offering stationeries (pencils, erasers, crayons etc). It was a fruitful outreach and extension service.
